Thermostat rebates are available for smart or programmable thermostats that control electric heating or cooling appliances. It must be installed in a home on Park Electric lines. All thermostat rebates will be sent guidelines for optimal settings and are requested to follow the settings.
 Qualifying timers include ones that control electric water heaters, large heating loads such as engine block heaters, heat tape or other large loads. Park Electric reserves the right to make a determination based on the load the timer is being used for.
 These devices may include analog, digital or smart devices. **Timers and/or thermostats for propane or gas appliances do not qualify.** Park Electric asks that members program all devices to avoid usage during peak hours which happen from 6-9 am and 5-8:30 pm, but this programming is not required. To apply for the rebate, this application must be turned into the office within 60 days of purchase with proof of purchase.
